1.2.1	Usage under “ELA”.....	3

V1.0 | 08/2019

This document defines additional usage scenarios for the software tools DaVinci Developer and DaVinci Configurator Pro.

Fact Sheets with the product descriptions are available in separate documents.

1 Additional License Usage Scenarios

1.1 Scope

The definitions in this document apply to following products (hereinafter referred to as "DaVinci Tools"):

- > DaVinci Developer
- > DaVinci Configurator Pro

1.2 Usage Under „EULA“

In addition to Section 2.1 of the "[End User License Agreement for Vector Standard Software Products](#)", the following usage scenarios are permitted for DaVinci Tools: "Remote access to DaVinci Tools is allowed with a device license if DaVinci Tools are operated in combination with other Vector products in order to access a real system (for example at an ECU test station)".

1.2.1 Usage Under "ELA"

In addition to Section 2.1 and 2.2 of the "Enterprise Licensing Terms and Conditions for Vector Standard Software Products", the following usage scenarios are permitted for DaVinci Tools: "Remote access to DaVinci Tools is allowed with a device license and/or named user license if DaVinci Tools are operated in combination with other Vector products in order to access a real system (for example at an ECU test station)".
